Shell Happy Timers Coming Here May 25

Capt. "Dobbsie" and Crew Will in Ukiah Wednesday at Lions Club Meeting

Wednesday evening, May 25, will be ladies' night at the Ukiah Lions club and, through J. H. Austin, the Lions have arranged for the appearance here on that evening of the Shell Happy Timers, famous for their broadcasts over the radio. Among the Happy Timers who will be here are Helen Lowe, soloist; Max Dolin, violinist; Wm. Powers, negro baritone; Wee Willie Hancock, and "Dobbsie." The Lions are to be hosts to the public of Ukiah on that occasion at a dinner to be served by the Methodist ladies at the church banquet room. There will be a charge made by the ladies of the church of 75 cents per plate for the dinner, but this will be the only charge. Reservations may be made at the chamber of commerce.

CHILD HURT

The young son of Mr. and Mrs. Kalio, of Redwood valley, suffered several abrasions of the face and body, when he was run into by Mrs. Belveal, of the valley, Sunday afternoon.

The youngster was in his coaster and playing along the road and turned into the path of the approaching car. Although Mrs. Belveal was driving slowly, she was unable to avoid hitting him.

He was brought to Ukiah, where Dr. Van Allen gave him medical attention.

ROAD WELL WORKED

E. R. Caldwell, deputy game warden of Covelo, was in Ukiah Wednesday afternoon on business. He reports the Laytonville-Covelo road is in fine condition, having been lately scraped by a grader and a crew of men, under the direction of Supervisor John Rupe of Willits.

Rudee Will Renovate Old Store Building

A contract for the remodeling of the Rudee building at the corner of Standley and north State streets was let this week. Work on the project will start the first of next week. The plans call for dividing the large store into three smaller places of business, with a new floor and front in each.

On the second story, a complete repaint and repaper job will be done. Improvements in the rear of the building and sanitary plumbing throughout are also included in the plans.

Rudee, accompanied by his son-in-law, Henry Lay, and J. B. Ganley, of San Francisco, were here Saturday completing the necessary arrangements. The contract calls for the expenditure of $10,000.

Rudee stated while here that no definite plans have been made as to who will occupy the premises.

Fast Teams Coming For Next Two Weeks

The baseball game between Ukiah and Hopland last Sunday proved to be a walk away for the local boys. The score was 9 to 1.

Although the Hopland team showed good form and made many good plays, the Ukiah team proved too strong for them. Metzler, pitcher for the visiting team, was knocked out of the box in the second inning. Jimmy Williams, who has been playing with Ukiah in the past, took his place.

Next Sunday the fans are looking for a fast contest with Sausalito. They are credited with winning the only game lost by Ukiah last season. They have a good aggregation this year, much better than their lineup in 1931.

Stanley Watson, manager of the Ukiah team, stated that his men are getting in shape for the games on the local diamond, May 29 and 30, between the Langendorf Royals and Ukiah. This will be a real test, as the San Francisco team have been winning every game they have played so far this year. Full support from local boosters is urged to help Ukiah keep her place in athletic circles in northern California.

Tele-Fone Contest Starts in Dispatch

The Tele-Fone Game, a new interesting feature for Dispatch readers begins in this week's issue. Turn to page two. The object of the game, briefly, is to find the telephone numbers which correspond to those that appear on the switchboard. After finding them, write a brief note or essay, as outlined on page two and submit it to the Dispatch Tele-Fone Contest Editor. Your reply may win a guest ticket to the State theatre.

Prizes will be judged until Thursday following each publication, in order that we may hear from our out-of-town readers, and give them time to submit their answers and essays.

The numbers on the switchboard represent the phone numbers of two of the business houses whose numbers appear below the board. These numbers will be changed each week during the contest.

Los Angeles Concern Leases Hunting Land

According to a bulletin sent out by the Sportsmen Association of California, 33,650 acres of land in Mendocino county has been leased by that association. The association, a Los Angeles concern, has over 100,000 acres leased in this state.

EUREKA WINS GAME

The baseball game held at the local diamond last Saturday between the Ukiah and Eureka high school teams was won by the latter team with a score of 1-0. The local high school team made many excellent plays and are to be congratulated on giving the Eurekans a stiff game.

Events such as this, in which we all take part, foster a neighborly spirit and a feeling of pride in our community. Let us all participate whole heartedly in Clean-Up Week, thereby helping to make Ukiah a better place in which to live!

Representatives of the Mendocino Lumber Company appeared before the board and asked the board to rescind and reconsider its action of April 11, 1932 whereby it rejected the claim of said Mendocino Lumber Co. for $508.32 for lumber for Fourth district of Mendocino county for bridges and culverts replaced in Comptche area fire in September, 1931. Eureka Car Thieves Taken After Chase

Phil Baxter, 20, and George Eagle, 27, Covelo Indian, were lodged in the county jail early Tuesday morning following their arrest at El Robles station on the Northwestern Pacific railroad, by Sheriff Dick Williams and Night Patrolman Tib Fisk.

Word was received about 1:00 a. m. Tuesday by the sheriff from Chief Criminal Deputy Charles Cavagnaro, of Eureka, that a car had been stolen in that city and the thieves had headed south. Immediately after receiving the information Williams called Deputies Earl Bishop and Wayne Crawford, and the three men started for Willits to apprehend the culprits. About five minutes after their arrival in Willits the stolen car containing the men sped through town. The officers gave chase.

The fugutives disregarded the officers' siren and several shots were fired at their machine, but failed to stop them. Running out of a gas a mile north of the Forks, the two men started through a vineyard for the railroad tracks.

Crawford and Bishop continued to Largo station, while Williams and Fisk went to El Robles. After a short wait, the men were intercepted by the latter two officers and arrested. Eagle admitted that they had stolen a car in Eureka and upon arriving in Garberville, had abandoned the machine on the streets of that city and stolen a car belonging to a state survey gang.

According to information received Monday by Sheriff Williams, the men are wanted by San Quentin authorities for escaping from a road camp on May 12. At the time of their escape they were serving time on charges of grand theft and second degree burglary.

They were taken back to Eureka by Humboldt county deputies.

Mendocino Students Graduate from U. C.

BERKELEY, May 14.—The University of California awarded 2610 bachelor degrees, higher degrees, and certificates of graduation to students on the Berkeley, San Francisco and Davis campuses, at the 69th commencement day exercises held this morning in the Memorial stadium.

The thousands of students, parents and friends who attended the ceremony were greeted by a commencement setting composed chiefly of trees and shrubbery brought in for the occasion, and with white pillars trimmed with blue and gold in the background.

The ceremony opened at 9:40 oclock, with the procession of the candidates for degrees and certificates, the faculty, alumni, guests and regents, all in academic caps and gowns.

The following Mendocino county students were awarded certificates or degrees:

Institutes Campaign for Prosperity Drive

The Bank of America this week distributed to the business men of Ukiah for display in their windows very striking placards bearing the slogan: "Your dollar will buy more and better merchandise today. California can lead the nation to sound prosperity."

There is no bank advertising on the placards and they are very effective.

The campaign is in line with the policy pursued for several months past by the bank in all its advertising, which has been subordinating the bank advertising to the general plea for confidence and a return to normal habits of spending.

TO GIVE PROGRAM

The Ukiah male chorus is planning to give a special program on the evening of May 27 in the high school auditorium. The chorus is made up of 100 boys and about 50 men. The program to be given on the 27th will consist of ten specialty numbers, besides the singing of the ensemble.

No one connected with the organization receives any remuneration, but funds are needed for expenses and the entertainment is for the purpose of raising money to defray these.

Shrine to Entertain Ukiah on June 25th

Aahmes temple, Order of the Mystic Shrine, will have as guests Ukiah and neighboring communities on June 25, when it will hold a ceremonial in this city. The shriners will be conveyed here by special trains and will be accompanied by their million dollar band and patrols.

During the afternoon fancy drills will be held in front of the courthouse plaza and a band concert will be rendered. In the evening a grand ball will be held at the grammar school auditorium.

Several years ago Aahmes temple made a pilgrimage to this place and the occasion made history for Ukiah. Our people are therefore looking forward to the coming visit with lively anticipation.

C. N. Mortenson, of this city, vice-chairman of entertainment of Aahmes temple, arranged the former visit and also has charge of the coming one. "Morty" never does things by halves and is sparing no effort to make the coming event one to be remembered with pleasure alike by the Shriners and the community.

Coast in Opposition to Abalone Industry

FORT BRAGG, May 18.—Over 300 members of the Fort Bragg Fish and Game club gathered in the Community club gym last Wednesday night to hear Col. Schofield, of the State Fish and Game Commission talk on the abalone question. Col. Schofield gave a very interesting talk, neither favoring commercial fishing or talking against it. He was of the opinion that if the supply of abalones warranted both commercial fishing and an ample quantity for the sportsmen on the shoreline, by all means have the commercial fishing; but, on the other hand, if there were only enough for the sportsmen, he would advise against commercial fishing.

Quite a number of questions were asked, indicating that the majority of those present were for keeping the shores for sportsmen, and not allowing commercial fishing to get started.

Coast Resident in Attempt at Suicide

Sam Remstedt, south coast man, is at the county hospital as the result of a gunshot wound, self-inflicted last Friday. Remstedt was found on the Clockers ranch, situated just south of the Navarro river and east of the coast road by his brother-in-law, Jerry Gilmore, with a rifle wound in his head. He was conscious when found and a 30-30 rifle was beside him and he is said to have been making efforts to shoot himself again when Gilmore approached. The rifle bullet had penetrated his forehead and came out just back of his ear. His injury is serious and at one time he was reported to have passed away. However, latest reports state that he is improving and will recover.

Remstedt is said to have been despondent as the result of family trouble. His wife was in Point Arena at the time of the shooting and Remstedt was alone on the place, which he was conducting as a dairy ranch.

The films are a complete travelogue of Mendocino county, showing the many miles of ocean shore, fishing streams, giant redwoods, wonderful valleys and farms of this county. Exposition park in Los Angeles has a large hall devoted to this sort of exhibits and thousands of tourists will be there during the summer months to view the showing of these films.

Payne Says Life Was Just One Pill After Another

Vancouver. — "My nights were misery on account of sleeplessness, and as far as constipation goes, my life for the past few years has been just one pill after another I wouldn't take anything in the world for the good this wonderful new Sargon did for me. I now eat with a keen, hearty appetite and enjoy sound restful sleep, and have abundant strength and energy just like I had twenty years ago. The Sargon Soft Mass Pills are wonderful for toning up the liver. They not only relieved my constipation but rid my system of poison."—Chas. J. Payne.

Covelo News

COVELO, May 16.—Open season on rattlesnakes is again here. Earl Long and Lloyd Hastings report the killing of 48 in the last two weeks on the Henley range, where they are looking after stock. Another stockman told of killing three in one day last week.

Mrs. Catherine Brown, county nurse, assisted local physicians in administering diphtheria inoculation to school children and those of pre-school age on Thursday. Thirty-one cases were treated at the grammar school in the forenoon, and 55 at the reservation school in the afternoon. The latter school is now insured 100 per cent against diphtheria. A second inoculation will be given on June 2. At that time smallpox inoculation will also be offered.

A birthday dinner on Sunday at the G. H. Ells home celebrated the natal day of the master of the household and of Omar Bates, a husky pair of "twins." Two full-sized decorated cakes were necessary to do fitting honor to the occasion. Dr. Hogshead and Mrs. William Walter of Willits shared in the day's festivities.

Mrs. Vic Brown Foster presided at the piano. Asher Havenhill furnished delightful flute accompaniment. The club was also augmented by the addition of three male voices.

A well filled audtiorium on Friday evening listened to a program of much merit when Mrs. Vie Brown presented her class of 16 young people in concert numbers. Mrs. Foster's opening remarks paid tribute to the loyal co-operation of both pupils and parents, which enabled her to secure the gratifying results illustrated in the program. Four-year-old Charles Chester set the opening pace by announcing his own two numbers and performing them without missing a note. Interest never lagged until the concluding notes of the choral club's "Roses of the South" by Johann Strauss. Diplomas certifying to the successful completion of one year's work were conferred upon Tommy Hill, Harold Goodwin, Anita Lois Hurt, Barbara Riffe, Gloria Long, Aloha Long, Wilma Vann, Imogene Lovejoy and Beulah Vie Foster.

Decorations for the occasion, which pleased the little performers mightily, were arranged by Mrs. Emma Rice. Fresh greenery formed the background and the footlights were shaded with a low white lattice draped with red roses. In the front of the stage was a pool with lily pads and blossoms. On the margin of the pool and among the flowers were gnomes, birds and tiny animals.

Friends are enjoying the opportunity to get a clear view of the moons of Jupiter, the diminishing crescent of the planet Venus, and the lace-like margin of our own crater-covered satellite. The clear atmosphere of our valley and the absence of tall buildings and artificial street lights make this an astronomer's paradise. Asher is busy at odd moments in grinding a lens for a new five-inch instrument.

Mrs. D. P. English is the proud grower of some unusually fine specimens of Colorado columbines in lovely pastel color combinations. They are of the single-spurred type and of more than ordinary size. About 50 taxpayers of Round valley gathered Monday evening at the auditorium, in response to a call issued some days ago, to meet with representatives of the taxpayers and good government economy league of Mendocino county. President Rolland T. Hurt of the farm center presided and introduced the speakers. The audience followed with careful attention the earnest and concise statements made by each in turn. Most of those present signed the petition for the naming of 15 freeholders to draft a county charter.

President J. C. Johnson of the organization gave a brief statement of the problems confronting us. Mr. Crawford rehearsed the incidents leading up to the beginnings of the organization and the appointment of Mr. James to investigate for the league the public records of the county. Mr. Collins, "without bitterness or prejudice," related the efforts since August on the part of the league to co-operate with county officials. He made clear the fact that the league is actuated not by personal animosities but by a desire to be rid of an antiquated and inefficient system of conducting public business. "Any private business run as our county business is and has been run for the last 40 years would be in a state of bankruptcy." Three points were emphasized: There is no financial responsibility. Records do not show cost of any given piece of work. Second, the division into five road districts results in making five counties of one. Moreover, proper road construction and maintenance call for technical engineering experience which the present system fails to provide. Third, the depression demands curtailment of expenditures, temporary to meet the emergency, and permanent to prevent continuance and ultimate revolution. Mr. Collins also read the constitution of the league and stated its aim to establish equitable distribution and to keep in touch with county government. He emphasized the right of every citizen to ask direct questions of our officials and to receive answers to those questions.

Preliminary to this meeting there was a short session of the local chamber of commerce, at which it was decided to increase the order for descriptive pamphlets of Round valley from 1,000 to 5,000. These pamphlets will be off the press this week. The chamber also voted to have the Henley oak included in the California Points of Interest Album now being compiled by the state chamber of commerce.

European Travellers Write Home

Letters to Ukiah friends from Mrs. Lillian Hengeveld Domergue under date of May 12, announce the safe arrival of the party in New York, after a cross-continent drive of eleven days.

The party greatly enjoyed the scenic variety and contrasts presented by the vast panorama spread before their vision along the great United States highways including the deserts and barren wastes of the plateau territory, the eternal snows of the Rocky mountain region, the velvety greenness of the Mississippi valley, and the tall forest of buildings in the metropolis of the country.

They congratulated themselves upon their good fortune in having the opportunity to see the country clothed in all the beauty of spring verdure, and noted the fact that spring comes later i nthe east, where the fruit trees are only now bursting into bloom.

According to Mrs. Domergue, one of the most impressive points of interest visited in their ocean to ocean drive was the majestic Niagara Falls, where they crossed over into Canada in order to obtain a better view of the immense cataract.

They spent May 11 and 12 sightseeing in New York City, and were going aboard the liner on May 13, which was to sail at five minutes past midnight on that date. That five minutes which changed the date from the closing hours of Friday, May 13, to the first five minutes of May 14, is important, according to the superstition of the sea.

The travellers are looking forward to an enjoyable trip and hope they will prove good sailors.

State Theatre News; Tabloid Reviews

"Carnival Boat," starring Bill Boyd and Ginger Rogers is playing last times today. This epic of the Sierran sequoias is interesting and different.

The main feature is accompanied by episodes in African Adventure and Buffalo Bill serials.

The news reel, which is a prime favorite of the school children, is now an important feature of every show. To the pictures of leading current events in the Chronicle news, there is the added attraction of the voice of Graham McNamee, the noted announcer.

Walter Huston, recognized as one of the most accomplished actors on the screen, contributes another virile Western characterization in a swiftly moving frontier drama, "Law and Order" coming to the State theatre Sunday. Huston attracted the attention of the entire theatregoing world when he appeared as Trampas in the recent production of "The Virginian."

This picture is an adaptation of a W. R. Burnett novel, and in it, playing the title role, Huston is seen as a gun-fighting U. S. marshal who exercises his six-shooters and his iron nerve on the wild frontier town of Tombstone, Arizona. "Law and Order" is said to present a perfect picture of the early West, with its lawless characters and its summary justice.

"Girl Crazy" will be the attraction at the State next Sunday and Monday.

In the cast are comedy stars, a child progidy, Broadway beauties, Hollywood cowboys, Mexican senoritas, two gun men, and polished villains. The action shifts from city tenement, to western dude ranch and Mexican resort and ranges from riproaring chases to rhythmic dances and tender love scenes.

Heading the imposing array of talent are the inimitable Bert Wheeler and Robert Woolsey, who start the film as city slickers and wind up as rough and ready westerners. Eddie Quillan carries the romantic lead of a girl crazy youth who transforms a respectable cattle ranch into a whoopee dude resort. Mitzi Green, Hollywood's child mimic wonder, plays a pestiferous little sister and the romance and beauty brigade is headed by Dorothy Lee, Arline Judge, Kitty Kelly and Lita Chevret. Stanley Fields and Chris Pin Martin play the shoot and run villains.

"Young Bride" will be staged at the State theatre next Tuesday and Wednesday.

In the picture Helen Twelvetrees has what is said to be her most dramatic role as a demure but love-hungry assistant librarian who is swept away by the romantic glamour of a handsome dance-hall sheik. Linden plays the part of the boy, and Miss Judge has the role of a sexy siren who attempts to lure him to his destruction. In addition to Cliff Edwards and Rosco Ates, the cast numbers Blanche Friderici and Allen Fox.

Imposing settings, including the interior of a first class Atlantic City hotel, a typical New York taxi-dance hall, a public library and a complete Hudson river steamboat were erected. The ranks of Hollywood's talent were combed fine to secure the best available players for the hundreds of atmospheric roles and the expert direction of William Seiter was provided.

What is said to be the first use of radio telephone in picture production occurred during the filming of "Corsair," the Chester Morris story of society hi-jacking which comes to the State theatre on Thursday and Friday.

Made upon a massive scale, "Corsair" is enacted principally on an extensive extensive rum fleet outside the 12-mile limit, and in order to keep in touch with his fleet, Roland West, producer, did most of his direction over the radio telephone. He also kept in constant touch with his studios in Hollywood and with his production base on Catalina Island, as well as with coastal authorities in San Pedro harbor. The proceedings resembled the handling of a war fleet.

Complete talkie equipment was installed on the ships, so that dialogue sequences were filmed at sea instead of being recorded later on sham sets in the studios. Working in these sequences were Chester Morris, Fred Kohler, Alison Loyd, Gay Seabrook, Mayo Methot, Emmett Corrigan, Ned Sparks and William Austin. Ray June was chief cameraman, and Rollo Lloyd and Robert Ross assisted in the direction.

In "Law and Order" if you can
See Walter Huston, two gun man,
In this wild Arizona role.
He now attains his greatest goal.

"Girl Crazy" brings a great array
Of stars together in a single play.
There's Wheeler, Woolsey, Quillan, Green
And many others to be seen.

"Young Bride" portrays a kind of life
With which great cities all are rife
With merriment the play's a-flutter
See Roscoe Ates and hear him stutter.

In "Corsair," yacht of bold rum runners
Is manned by gridiron kings as gunners.
Don't miss this great marine display,
A wonderful play of modern day.

Notable Birthdays Celebrated Tomorrow

Three prominent residents of Ukiah whose birthdays fall on May 22 have made an annual custom of celebrating the anniversary together.

This year the party will be held at the attractive home of Mrs. C. A. Bernhard on Grove street.

The group includes Mrs. Bernhard, Mrs. Della Anderson and Dr. J. R. Thomas. Mr. and Mrs. William Bromley, who were their schoolmates, are always invited to join in the festivities.

Mrs. Bernhard, daughter of Mr. and Mrs. E. S. Ames of Ukiah, was born at the family home on east Perkins street, now owned and occupied by her sister, Mrs. W. E. Williams. The Ames family was prominently associated with the early history and development of the city and county.

Mrs. Della Anderson, daughter of Mr. and Mrs. Andrew McKay, was born at Comptche in this county. She is a member of the pioneer Guntley family of Anderson valley, who were identified with the early settlement of that section, where they are still large land owners.

Dr. J. R. Thomas, son of former Assessor M. A. Thomas and wife, was born on the old Thomas place at the head of Redwood valley.

His grandfather, Dr. J. R. Thomas for whom he and his cousin, Mayor J. R. Thomas were named was a leading educator, county superintendent of schools, and an able minister of the county in early days.

The history of the prominent pioneer Thomas family is inextricably interwoven with that of the county where they have made their home for several generations.

"The Green Pastures"

The celebrated Biblical spectacle, "The Green Pastures," is playing an engagement in San Francisco—the only presentation in northern California—at the Columbia theatre, with matinees on Wednesday and Saturday afternoons.

Not since the spectacular drama, "Ben Hur," fired the imagination of theatre-goers, more than a quarter of a century ago, has a stage offering developed so great and universal appeal as "the divine comedy in black-face"—a popular name for the Pulitzer prize play.

"The Green Pastures" is a stage presentation of the story of Creation and sacred history throughout the ages to the dawn of our era, as conceived by the unsophisticated plantation Negroes of the deep South. Consequently it abounds in naive humor, and some of the situations involve comedy bordering upon burlesque. Yet so novel is the play that every such scene terminates in poignant tragedy. Such episodes as the creation of the Universe, the Deluge, and cruise of the Ark, the Exodus from Egypt and taking of Jericho, and the fall of Jerusalem are presented in spectacular manner.

The original Negro cast numbering more than a hundred, headed by Richard B. Harrison, which created an unprecedented sensation throughout 640 consecutive performances in blase New York and 160 in Chicago, will be transplanted intact with the famous "Heavenly Choir" which functions like the chorus of the ancient Greek theatre—establishing the mood before and after each scene and amplifying the action as it progresses.

PROCEEDINGS OF THE SUPERVISORS

Continued from page one)

districts, of all expenditures made by the schools of Mendocino county for the month of March, 1932.

The minutes of the last regular meeting of this board of supervisors were read and approved.

The report of E. H. Smith, county surveyor, recommending the acceptance of Union Landing Hill road, contract of J. A. Barton, as completed and finished as per contract, was accepted, and the amount due said contractor at this time was ordered paid.

The board authorized and directed the auditor of Mendocino county to prepare a correct statement in answer to the statements published by the executive committee, Mendocino County Taxpayers' Association, in the Fort Bragg Advocate on April 20, 1932.

By a four-fifths vote, the board charged the cost of the acquisition and construction of new roads, and the cost of the repair, maintenance, reconstruction, surfacing, etc., of certain existing roads in Supervisorial Districts Nos. 2, 3, and 4 to the County General Nos. 2, 3, and 4 funds respectively.

Upon petition heretofore filed, the board adopted a resolution taking from Round valley judicial township all of the territory included within the Eden valley voting precinct and annexing the same to Little Lake judicial township.

The necessary claims against Mendocino county were allowed as shown by the allowance book for May 10, 1932.

The board then adjourned to, and reconvened at 9:00 oclock a. m. May 11, 1932, with all members and clerks present.

M. B. Pratt, state forester, appeared before the board and discussed with it the matter of an appropriation for fire prevention and suppression for the fiscal year beginning July 1, 1932. After discussion and consideration the board agreed to appropriate in the next budget, the sum of $2,000 for cooperation with the State of California for said fire prevention and suppression.

The county clerk was directed to certify, to the county auditor, a list of the persons serving as election officers at the election held in Mendocino county on May 3, 1932, and the auditor of Mendocino county was directed to draw his warrant for the sum of $6.00 for each of said persons for services as such election officer.

The board fixed $30 per month, payable six months in advance, as the rate payable for care and maintenance of persons receiving same at Mendocino county farm and hospital, and fixed $2.00 per day as the rate payable for care, maintenance and hospitalization at said institution.

The board adjourned to, and reconvened at 1:45 o'clock p. m. of this day, May 11, 1932, with clerks and all members, except Chas. R. Perkins, present.

After taking testimony, the board found that the county road along the right of way described in deed from J. W. Bell to Mendocino County, dated April 2, 1912, is not necessary for public use, and thereupon said road was abandoned. (Old Feliz Creek road).

The board accepted a deed from William C. Crittenden, Incorporated, A. M. Shearer, Wm. J. Shearer, and E. A. Hopper to the County of Mendocino for right of way for road up Feliz creek, authorized and directed E. M. Ford as chairman of this board to sign the acceptance of said deed on behalf of said board, and ordered the recording of said deed.

It was ordered that the board request the State Division of Motor Vehicles to provide Mendocino county with one additional traffic officer.

After taking testimony, the board found that the county road known as Long Branch road, in Supervisorial District No. 3, is not necessary for public use, and thereupon abandoned said road.

The board approved the map of S. A. Richey subdivision but did not accept any roads thereon offered for dedication on behalf of the public.

Supervisor C. E. Gordon withdrew from the meeting at this time.

The board granted four (4) applications for state orphan aid for $10.00 per month, each, effective May 1, 1932.

It was ordered that this board pay B. G. Broaddus at the rate of $5.00 per day for clerical assistance in canvassing the returns of the elections held in Mendocino county on May 3, 1932.

An order was made directing the auditor and assessor of Mendocino county to make a correction in the assessment of James D. Lacey Company, Assessment No. 6969, Vol. 5, 1932 rolls; the assesment as it now stands being a double assessment.

The following reports were received and placed on file: Steward county farm and hospital, matron county children's home, agricultural commissioner, all for the month of April, 1932, and report traffic officers for the month of March, 1932.

The board found that the property conveyed to the County of Mendocino by John Taylor by deed dated June 9, 1916 and being described as W½ of SW¼ Sec. 1, Twp. 18 N., R. 12 W., M. D. M., was not required for public use, and ordered that it be sold, by the clerk of this board, at public auction at the courthouse door after giving notice as required by law.

The board completed the estimate of votes cast for candidates and propositions at the presidential primary election and special state election held in Mendocino county on May 3, 1932, and decalred the results of said elections, which were as set forth in the tabulation in the minutes of this board.

The board then adjourned.

Plan Enlargement of Service Station

Extensive improvements will be made sometime this month at the Van Fleet and Durkee service station at the corner of north State and Henry streets by the engineering department of that company.

The plans include the turning about of the station to face State street and the installing of six more pumps of the latest type, manager A. T. Henrich stated.

Lad Escapes Death by Seeming Miracle

Thrown Into Rocky Creek Bed As Car Turns Over. Other Boonville Notes.

BOONVILLE, May 18.—Frank Wallach, 15-year-old son of Mr. and Mrs. C. M. Wallach, had a miraculous escape from serious injury or death Saturday afternoon when the car he was driving went over the grade on the Boonville-Ukiah road, near the Singley ranch. The machine, a touring model, made a sheer drop of about 25 feet, turning over and landing upright in the creek bottom, a total wreck. Frank was thrown unconscious into a pool of water which was cold enough to revive him, saving him from drowning. He was under the car and had missed a huge jagged rock by inches. Two gashes of about an inch in the back of his head were the only injuries he received. A few feet from where he fell the creek bottom is solid rock, covered with sharp jagged projections that he was fortunate in missing. Mr. and Mrs. J. E. Sweet and Wm. Wallach had just left the car at the Singley ranch, thus escaping the accident.

A meeting has been called by F. A. Rawles, president of the Boonville Rural Telephone Co., for Saturday evening, May 21, at 8:00 o'clock, at the high school auditorium for the purpose of organizing the new company and signing the by-laws. Attorney W. D. L. Held will be present to explain any questions that may arise. It is important that all members of the company are present.

Mr. and Mrs. Albert Ferrell and Mrs. Lena Pierce enjoyed a pleasant motor trip to the Geysers in Sonoma county Sunday.

Mr. and Mrs. R. E. Vallier were business visitors in Willits Sunday.

The school benefit dance at Navarro Saturday night was well attended and the school should have cleared a nice little sum. From all reports, everyone had a very pleasant evening. Supper was served buffet style.

Mrs. K. B. Wallach, manager of the local telephone exchange, has been confined to her home for several days on account of illness but is reported improving.

Mr. and Mrs. B. D. Estill and small daughter, of Ukiah, were Sunday visitors here.

BOONVILLE, May 16.—W. L. St. John and son, H. A. St. John, passed Sunday on the latter's claim on Bald Hills. During the day they encountered and killed a large rattlesnake, bearing nine rattles. This is the first one reported around here this season.

A. W. Raglan has been seriously ill with influenza and has suffered a number of sinking spells, but is now reported improving.

J. L. Rector is taking an enforced vacation as the result of a kick from a horse, the muscles of Mr. Rector's thigh being torn loose. He was given first aid by Mrs. Nichols and later taken to Cloverdale by her to consult a doctor, who ordered him to keep off his feet for a couple of weeks. In the past Mrs. Nichols, when called in, has ordered patients to consult a doctor, which some have neglected to do and have suffered from it much to her regret, so evidently now she is not taking any chances, but is taking them to a physician herself.

Mr. and Mrs. Robert Lawson, of Ukiah, visited relatives here this week.

Robert Brown was struck on the hand by a baseball bat during a game at the high school Wednesday. The player up to bat stepped back as he swung and Catcher Brown caught the full force of the bat on the back of his hand. Fortunately no bones were broken. Coach Decater took him to Ukiah, where an x-ray was taken and revealed that, while painfully injured, it was not serious.

Miss Marion Hendricks, of the high school faculty, is carrying her right wrist in splints. She injured herself while on a horeback trip last week and an x-ray showed the ligaments were torn.

Places were set for 26 at the junior-senior banquet Friday evening at the high school and from all reports it was a feast to tempt the appetites of an epicure. Leland Farrer, president of the junior class, acted as toastmaster and after dinner speakers were Miss Isabel Smith, Miss Marion Hendricks and J. H. Decator, of the faculty and members of the senior class. Dancing completed a very pleasant evening. The juniors appreciated the help given them in serving by the following: Mrs. F. B. Cook, Mrs. M. C. Gowan and Misses A. B. Willis, Madge Johnson, Naomi Wallach, Rosie Gusti and Mary Gowan.

Miss Allo Willis resumed her studies at the high school Monday and expects to be able to complete her work for this term with her class. She is still confined to her wheel chair, but since having her ankle broken over while in Shriner hospital, San Francisco, she has been free from pain for the first time since her automobile accident two years ago. It is hoped also the circulation in her limb will be improved.

Mrs. Dudley Cable returned from an extended visit in Los Angeles, where she was the guest of her son-in-law and daughter, Mr. and Mrs. Hal Derry. Mr. Derry brought her home and passed several days here before returning to Los Angeles. Mr. and Mrs. Derry are former residents of this place, having been part owners of the Boonville Lodge a few years ago.

High school trustees have been busy this week interviewing applicants who desire the position of principal of the local school.

Shirley Vallier and Jeanette Knivila, of the Boonville school, have both been absent from school this week on account of illness.

He was propelling his little play wagon along the road with one foot as Mrs. Belveal started to pass him. He turned to look at the car and in so doing unintentionally steered the wagon directly in the path of the car. Mrs. Belveal was driving slowly but struck him before she could entirely stop. She rushed him to Dr. Van Allen, where an examination disclosed he was not seriously hurt. His mother was near by when the acident happened. The father left on a trip to Alaska a few days ago.

The Rev. Elbert Holland will fill his regular monthly appointment at 8:00 o'clock Sunday night.

The evangelistic meetings conducted by the Rev. J. Pickle have been discontinued.

The school trustees at a meeting Thursday night rescinded their action of the previous night in voting to retain all of the present teaching force and decided not to reemploy Miss Wilson and Miss Kirtlan. The trustees thought this action best as there had been some friction among the teachers.

PROPER EYE CARE

By Dr ROBERTS

The Optometrist of today is a Refracting Eye Specialist, licensed under the State laws, after a regular college course, to correct defective vision by mechanical means, and must, also have a thorough knowledge of the anatomy, and diseases of the eye. It is also necessary in this period of advanced medical science, in order to make a scientific refraction, to keep up with the times in research. Therefore, to be successful the operator must devote his entire time to the profession. In times gone by, jewelers, barbers, dentists and various tradesmen fitted glasses as a side line, but no more. Optical science has gone far beyond the guessing, at a fit, and merchandising eye glasses.

The Oculist is the Physician and Surgeon who has received a medical degree, and specializes in eye diseases where medical or surgery is necessary.

The Optician is a person skilled in the making of optical goods, such as frames and grinding lenses to a special prescription from the Optometrist.

I am both Optometrist and Optician, and devote my entire time to properly fitting and making your glasses here in Ukiah. I am here to stay, and my over 300 satisfied patients is proof of work properly done. My work is backed by a guarantee, and prices are reasonable. Examination and adjusting without charge.

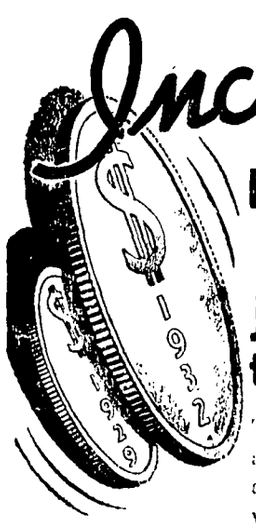
Increased BUYING POWER of the dollar justifies the return to normal spending



Thoughtful people all over California are returning to normal buying habits—and they are getting some of the greatest values of their lives. Building materials, automobiles, clothing and high grade merchandise of every kind are being sold at temptingly low prices. Now is the time to take full advantage of the increased purchasing power of the dollar, stimulate every line of business, and return the unemployed to their jobs. Even reduced incomes are balanced by corresponding reductions in the prices of nearly all commodities. There is no excuse for not satisfying one's normal needs. Prosperity depends largely upon both *banked* and expended money. Until idle money circulates freely, unemployment will continue to be with us. The return of good times is strictly up to each one of us. Think it over.

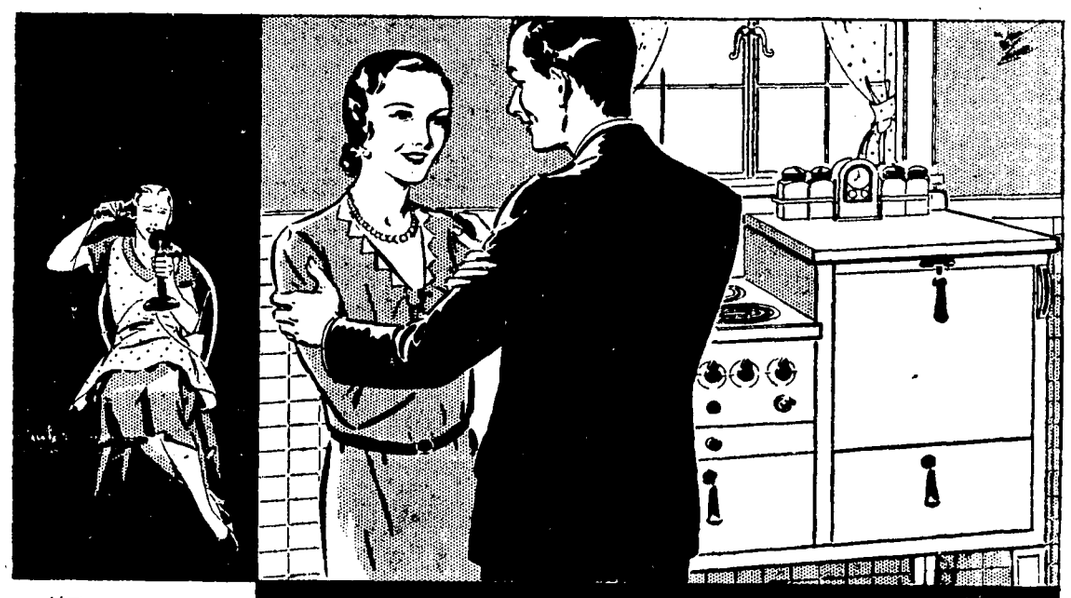
★ MORE THAN 210,000 CALIFORNIA WOMEN SAY....

Electric Cooking is Economical...Modern...Clean



"I can't get away!"

"My dear... I wish we'd known about electric ranges before"

SHE never had time to go any place. Repeatedly she made excuses that really meant. "I can't go because dinner isn't ready."

Now she has a modern electric range. Her husband urged her to buy it. It seemed like the right kind of cooking apparatus to him. It was quiet, cool and run by a clock that set heating units to work at their job of cooking food. Thermometers turned of the radiant electric coils that did the cooking. It didn't require someone to stand-by as stove watchman.

Are they satisfied? Are the 210,000 California women grateful to the freedom electric ranges are granting them? Of course they are.

The modern electric ranges roast meat, steam vegetables, bake cakes and pastry to a noticeably better and more healthful tastiness. And the answer is in the even radiant heat that electricity alone can give.

Electric ranges too, are economical in operation. A considerable amount of the cooking can be done on stored heat in thickly insulated ovens, after the current has turned off. That is why examination of 1,117 electric range users' accounts show the average cost of cooking with electricity is but 1 cent a meal per person.

CHRISTIAN SCIENCE CHURCHES

"Soul and Body" will be the subject of the Lesson-Sermon Sunday, May 22, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The citations which comprise the Lesson-Sermon will include the following from the Bible: "And great multitudes came unto him, having with them those that were lame, blind, dumb, maimed, and many others, and cast them down at Jesus' feet; and he healed them: Insomuch that the multitude wondered, when they saw the dumb to speak, the maimed to be whole, the lame to walk, and the blind to see: and they glorified the God of Israel" (Matt. 15:30, 31).

The Lesson-Sermon also will include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation" (p. 210).

Mrs. Matt Piper, of Kelseyville, was in Ukiah Monday to consult Dr. Bennett.

NOTE:—In the above tabulation of the tides the daily tides are given in the order of their occurence, commencing with the early morning tides in the left hand column and the succeeding tides as they occur. On some days but three tides occur, the fourth occuring on the following morning.

The column of heights gives the elevation of each tide above or below the level of the Coast Survey chart soundings. The numbers are always additive to the chart depth.

The data is practically the same for Point Arena Light, Navarro River Entrance, Little River Harbor, Mendocino Bay and Fort Bragg Landing. For Westport subtract 5 minutes from the time and for Shelter Cove add 0.8 ft. to high tide.

Venus and Jupiter are high in the west shortly after sunset.
Saturn rises about 11:40 p. m. Mars rises about 3:40 a. m.

The time of rising and setting for the sun and moon is when the upper limb is on the normal sea horizon. In the valleys the time of rising appears to be later, and that of setting earlier. For the Mendocino coast add 2 minutes to the time at Ukiah.

All of the foregoing astronomical data is taken from American Ephemeris and the time is Pac. Std. Time.

WILLITS NOTES

WILLITS, May 17.—The trustees of the Willits union high school have prepared contracts for every member of the present faculty but a reduction has been made in all of the salaries. The saving will aggregate $2,400. It is thought that all of the present teachers will sign the new contracts.

Married on Jinx Day

Friday, the 13th, had no terrors for Joseph Hilton and Bettie Bryan, both of Branscomb, who were married at Judge W. F. Whitney's office on the only jinx day which will occur this year. Following the ceremony the judge, as usual, kissed the blushing bride and their friends showered them with rice. They will make their home in Jackson valley.

Radio Interference

For some time all owners of radios residing in and near Willits were unable to get reception between the hours of 9:00 a. m. and 6:00 p. m. and finally the complaints became so loud and vigorous that John Harpe and Chas. Moffitt went out wtih detectors and traced the interference to the heavy voltage line in front of Frank Whitney's service station, where a power line had got loose and laid across the yard arm. This has since been corrected and now the radio reception is very good.

Catches Old Coyote

A few days ago Vic Tuck, government hunter, trapped an old female coyote on the Henry Singley ranch near Orr's springs. This particular coyote is charged with having killed numerous sheep in that section and of having committed other depredations. An examination proved that she had a litter of pups that had not yet been weaned but they could not be found. It is thought that the pups will starve, now that their mother is dead.

Swimming Is Good

Nearly every day parties of Willits young people motor out to Longvale, where the swimming is reported to be excellent. The warm weather during the past two weeks has warmed the water, which is now clear but not quite as deep as would have been expected following our extended rains.

Sherwood Valley Roundup

All of the ranchers living in the Sherwood valley section have just held their annual roundup at the Sunny Hollow ranch, which was formerly the old Doc Standley place. Following the roundup the entire community were the guests of Lou James and they held a rodeo after the cattle had been marked and branded. The buckaroos rode (or tried to) 14 bulls the first day, and there was some action. Wilbur Foster was thrown at the first jump and Lou James did not do much better. The honors were all carried off by Master Willie Pearson, a 10-year-old boy, who rode a calf in such an expert manner that it would have even shamed Norman Cowan, the world's champion.

Sunday they had another rodeo and a very large attendance is reported. It is said that some of the wildest animals will be taken to the Ukiah rodeo for exhibition purposes and everybody is wishing that Willie Peason may carry off all of the honors in the amateur class.

Improving Roads

Supervisor J. M. Rupe has ordered two shipments of bitumal road oil to be divided evenly between Willits and Round valley. All of the roads in both this valley and Round valley which have heretofore been oiled will now receive another coat of oil and fine gravel and the chuck holes will be filled with rock. After this last application it is hoped that these sections of road will be equal to the armour coated roads now being built by the state highway commission.

Supervisor Rupe and County Surveyor Ed Smith went out on the Willits-Fort Bragg highway last Saturday and Mr. Smith is now making an estimate of the yardage that will have to be removed on account of the slides last winter. Supervisor Rupe is having these slides removed by day labor and splendid progress is now being made. Supervisor Perkins is also repairing his end of the highway and it is hoped to have it open for travel by the first of June.

Automobile Accident

On Wednesday afternoon of last week a serious auto accident took place at the corner of Main and California streets. Mrs. Qualkenbush, of Illinois, was driving north and met a car driven by George Mortensen, going south. At this juncture another car came up from California street and this caused so much confusion that the accident was almost unavoidable. The cars ran into the fence in front of Frank Corbett's house and wrecked quite a section of it. Both cars were badly damaged and all of the occupants of the Mortensen car received slight injuries.

Masonic Temple

The forms for the foundation of the Masonic temple were built the first of the week and the concrete is now being poured. The work on the superstructure will start just as soon as the concrete hardens.

Free Flour

Bill Folz, secretary of the chamber of commerce, has already given away about half of his first allotment of government flour. He has disposed of 1,300 pounds.

Hospital Notes

This month has already brought a good crop of babies and is only half finished. Six babies have been born at the hospital so far this month, four of which were born last week.

Last Saturday a son was born to Mr. and Mrs. Donald Ainsworth.

A son was born to Mr. and Mrs. Roy Goforth on the 10th.

A son was born to Mr. and Mrs. Totten on the 13th.

A daughter was born to Mr. and Mrs. Will Thom on the 15th.

Dr. R. B. Smalley has been confined to the hospital for the past week following a mastoid operation. He will be out this week.

Donald Calder, the lad who has been in the hospital for several weeks taking treatment for spinal meningitis, was released yesterday and returned to his home in Long valley.

Mrs. Mary Boldue underwent a major operation the first of the week.

Mrs. Estep fell off of her porch a few days ago and suffered a broken left hip.
